

We are proud to present a range of cushions and mattresses specially designed for our new garden furniture range! Please find below all necessary information about the entire range of our new textile products.

## POLYESTER

POLYESTER – 190 g/m<sup>2</sup> polyester is a durable fabric, ideal for outdoors. Our polyester cushions and mattresses are intended for use in countries with a temperate climate and are available for the following products:

## COLOUR\*

“Classic Ivory” is a popular colour for use both indoors and outdoors.

## WATER REPELLENCE

Products made of polyester have a high degree of water repellence; nevertheless to prolong their durability, we recommend cushions be protected from heavy rain.

## UV RESISTANCY

Products made of polyester have a medium degree of UV resistance and so should be protected as far as possible against direct sunlight.

## WASHING

This kind of fabric is best washed by hand. However, repeated washing of polyester covers will reduce their water repellence.

Please see Instructions below:

## OLEFIN®

210 g/m<sup>2</sup> Olefin is a natural looking thick, durable fabric ideal for use outdoors. Olefin cushions and mattresses are intended for countries with a Mediterranean or hot climate and are available for the following products:

## COLOUR\*

The colour "Elegant beige" harmonizes perfectly with the natural colour of wood. With its elegance and delicacy, beige will add warmth to any space.

## WATER REPELLENCE

Waterrepelency of Olefin is enough for countries where rains are rare. We recommend protecting cushions from heavy rain, it will prolong their durability. Additionally, fabric is resistant to swimming pool water.

## UV RESISTANCE

Olefin products have an excellent degree of UV resistance. They can be expected to retain their original colour even after years of use. Additionally, this fabric remains cool in hot weather.

## STAIN RESISTANCE

Olefin fabric is naturally stain resistant thanks to its Teflon® finish, which means that most stains are easily removed from its surface.

## WASHING

Olefin products are best washed by hand. However, repeated washing of Olefin covers will reduce their water repellence.

Please see Instructions below:

\* due to the properties of the monitor screen, the colour may differ from the actual one

**ACRYLIC - DRALON®** 190 g/m<sup>2</sup> Dralon is a pleasant to the touch, durable fabric ideal for use outdoors. Acrylic cushions and mattresses are intended for use in countries with a Mediterranean or hot climate and are available for the following products:

**COLOUR\***

The colour “Modern graphite” will prove the ideal accent for sunny outdoors, swimming pools, outdoor cafes and restaurants.

**WATER REPELLENCE**

Acrylic products have a high degree of water repellence, thanks to their TEFLON® finish. Nevertheless to prolong their durability, we recommend cushions be protected from heavy rain.

**UV RESISTANCE**

Acrylic products have a high degree of UV resistance. They can be expected to retain their original colour even after years of use. Additionally, this fabric remains cool in the heat and warm in cooler temperatures.

**MILDEW**

Dry-spun DRALON® fibres inhibit the formation of mildew and are resistant to bacteria.

**WASHING**

Cushion covers may be machine washed. However, repeated washing of acrylic covers will reduce their water repellence. Please see Instructions below:
