ALTON CEDAR GREENHOUSES FROM THE UK								
Cambridge T-shaped Cedar Half-Boarded Greenhouse - Handsome cedar greenhouse with front porch/portico. 10' peak, 5'7" high sidewalls, and 45 degree roof pitch. Front door to back wall is 9'11", while main rectangle is 8'8" wide. All wood is Grade 1 Western Cedar from Canada dipped and sealed (NO knots). Constructed with mortise-tenon and tongue-groove assembly and stainless steel hardware. Included: aluminum capping (for additional water protection), shelves and ridge decorations. Glazing is 3mm thick tempered safety glass. The single hinged door with keyed lock on one gable swings inward. Includes gutters/downspouts and aluminum base frame designed to raise wood framing from ground exposure. Knee brace spandrels at every rafter intersection: at both the ridge and the shoulders/gutters. Extended units also use additional wooden trusses. NOTE: individual wood pieces will vary greatly in color (light to dark).								
		Cambridge T-shaped Cedar Half-Boarded Greenhouse 12'5" L x 9'11" D - includes 4 Roof Vents with auto openers, 2 louvered windows with manual openers, and single hinged door. 		Alton Clear Cedar Protectant 2.5 liter can - The cedar used in Alton's products has an inherent resistance to rot. If the cedar is not regularly retreated the colour will fade to a natural silvery-grey.	ALT4207	Clear	\$50.00	\$75.00	2.5 liters	United Kingdom
		Alton Anchoring Bracket Moss Color for Alton GH - These 9 3/4" long angle iron anchors are designed to attach to the base of the greenhouse and then be embedded into concrete below ground level to securely anchor the greenhouse. Your Alton greenhouse will include several, but this is the option to purchase more if you are in a windy area.	ALTEVO232M	moss green	\$6.00	\$11.00		United Kingdom
 		Alton Evolution Internal roller shade - can be used to protect plants from stong sunlight or provide insulation over winter. The flexible nature of the mesh fabric will allow automatic roof vents to operate without interference. These are sized to fit the width of one pae of Alton greenhouse glass and may not work well with other manufacturer's greenhouses. Fabric is 22" wide and pulls out about 85" maximum. (LROBBLIND - Robinsons)	ALT4206	black	\$189.00	\$299.00	N/A	United Kingdom
		Evolution Louvre Auto Opener for Alton GH - designed to work with Alton Louvered windows. Works with oil filled piston that expands with warmer temperatures to open the louvers. Opening temperature range adjustable between 59-77 degrees F. Piston included. (EVO0327)	ALT4379	black	\$89.00	\$150.00		United Kingdom

Important Note: can not ship by UPS/FEDEX - has to go freight - usually at least \$400 - but no extra freight to ship with a greenhouse!!	VI HDD Green	dark green	\$1,699.00	\$2,549.00		Belgium
			VI HDD Black	black	\$1,699.00	\$2,549.00		
		Drop-Door Kit - Hinged Door (recommended)- made by Exaco - this allows a standard Royal Victorian greenhouse to be placed on a knee/stem wall - usually 20" - 36" high (24" might be best). This Kit does not include the new glass panels needed above the doors - they should be ordered locally to size. We can supply extra polycarbonate for customer to cut to size. NOTE: we strongly recommend upgrading to Hinged Doors when greenhouse stands on a wall. We send enough material for 30" walls if more is needed let us know.	Vic drop door - hinged doors (single or double)	dark green	\$50.00	\$100.00		Belgium
				black				
		Drop-Door Kit - for sliding doors (not recommended) - made by Exaco - There are numerous issues to mounting the sliding door on a knee wall, please call Exaco to discuss. We strongly recommend upgrading to hinged door with a knee wall. This Kit does not include the new glass panels needed above the doors - they should be ordered locally to size. We send enough material for 30" walls if more is needed let us know.	Vic drop door - sliding door (single or double)	dark green or black	\$75.00	\$150.00		Belgium
				black

		Door Centering kit - Useful if centering a single door on a unit with an even number of bays (i.e on a VI34) or a double door on a greenhouse with an odd number of bays (i.e. at gable end of VI46). Kit includes (1) additional PRO1456 to help frame two narrow bays on either side of door and (2) narrow panes of glass for standard wall height. Kit with glass panes can ONLY be shipped with original greenhouse order. If greenhouse has already shipped, only a PRO1456 will be available and glass must be ordered locally.	VI DOOR CENTERING	black or green	\$200.00	\$299.00		Belgium
		Hinged door stop/holder - Door stop with latch to also hold door open. Generally included with original hinged door unless other door hardware is chosen. Black only.	VI HD STOP	black	\$49.00	\$79.00		Belgium
		Hinged door auto closer - Similar to commercial door auto closer. Arm and fixture are mounted inside the greenhouse to pull the door closed. The angle of door opening may be adjusted (can work well with greenhouses on knee walls). Auto closer only allows maximum opening of about 120 degrees.	VI HD PUMP	silver	\$94.00	\$139.00		Belgium

		PRO21777 Reinforcement inserts for PRO1456 rafters and sidewall studs on Janssens greenhouses. These are especially good for high snow and wind load areas that need additional reinforcement on the greenhouse. These unpainted extrusions slide into the PRO1456 or PRO33325 extrusions. Sold per foot - Exaco will cut to length.	PRO21777	unpainted aluminum	\$8.00 per foot	\$12.00 per foot	varies sold per foot	Belgium
		PRO210 Anchors - These are the same angle irons that are used at the corners of the Janssens' greenhouse to anchor the greenhouse. These may be attached to other points along the greenhouse base frame and embedded in concrete to add additional anchoring in high wind load areas. These may also be cut into smaller segments to use as L brackets with concrete screws.	PRO210G or PRO210BL	Green or Black	\$7.00	\$10.00		Belgium
		Stainless steel reinforcement bracket - good for hanging heavier items - may be used on Rigas or Janssens' greenhouses.	Reinf Bracket	aluminum	\$33.00	\$49.99		United States
		Victorian Sidewall Wind Straps - Excellent addition for high wind areas to create an "X" with strapping at the corner panes. All Victorian greenhouses include one diagonal windstrap with kit. 1975mm or 77 3/4" long	VI PRO21214 TRE BL or GR	aluminum	\$14.00	\$19.50	1975mm	Belgium

Product Photo	Notes	Product Description	Item #	Color	Wholesale Drop-Ship Cost (shipping/freight is addt'l)	Retail Price (MAP)	Size	Country of Origin
	NEW	Additional Gable diagonal support tube for Victorian Greenhouses - Great option for VI 36 and VI46 greenhouses in higher windload areas or if mounted on kneewalls. This is an additional diagonal tube 27.5" long to be used along with the diagonal support in the standard kit. Doubling up on the supports will reinforce the gable end of the greenhouse against heavy gusty winds.	VI PRO744 BL or GR	aluminum	\$8.00	\$12.00	700mm	Belgium
		T-Bolts: 20 Stainless Steel hammerhead bolts nad nuts - can be inserted in the channels in any of the aluminum frame profiles - turned 90° - these to attach accessories such as shelving later. 12mm long	Vic T-Bolts	stainless	\$30.00	\$50.00		Belgium
		M6 x 12 Bolts and Nuts (20 count) - bolts/nuts used to assemble the Janssens' greenhouse, 12mm long. Stainless Steel. Pack of 20 bolts and 20 nuts.	Riga Nuts & Bolts	Stainless Steel	\$15.00	\$25.00		Germany
	NEW	HOK Eye Ring with T Bolts - T bolt with eye ring that threads on to allow you hook items to the wall/roof in your greenhouse. Pack of 10 bolts & eyes.	HOK EYE Ring pk of 10	Stainless Steel	\$37.50	\$49.99		Germany
	NEW	Black Twist Eyes - easily inserts into the channel of the greenhouse, then turns 90 degrees to catch the edges of the channel. These work for lightweight items - growing wire, cord, or attaching insulating bubble wrap inside the greenhouse. 50 pieces per bag.	VI TWIST EYE	Black	\$29.00	\$39.99		Belgium
		Painted Aluminum panel for Janssens' greenhouse wall - powder coated in fir green or jet black. This is a panel that could replace a sidewall piece of glass (28 3/4" x 72 3/4") in order to install a vent for a heater, for privacy, or other use. Due to size and risk of damage, this is best shipped with the greenhouse	VI ALUM FULL PANEL GR or BL	Green or Black	\$250.00	\$349.00		Belgium
		Painted Aluminum "Half" panel for Janssens' greenhouse wall - powder coated in fir green or jet black. This is a panel that could replace part of a sidewall piece of glass (28 3/4" x 32 1/2"" in order to install a vent for a heater, for privacy, or other use. If replacing a full sidewall piece of glass, you will also need to order a crossbar, brackets, and a piece of glass to fill the remaining space	VI ALUM HALF PANEL GR or BL	Green or Black	\$220.00	\$319.00		Belgium

New Greenhouse Shadecloths (Janssens shadecloths are listed under Accessories section)

Universal Retractable Roll-up Shade curtains with aluminum weave; Made by Hoklartherm in Germany (an in-house product) multiple sizes -to fit basically any greenhouse (within some limitations). The available pull out length of the shade cloth fabric 6'6" - rolls should not be used in applications longer than 6'6". The fabric length is 8 feet, however several wraps of fabric remaining on the roll are necessary to maintain tension on the fabric attachment point. The Gigant and Modern rolls have longer pull out lengths as noted. Made from: FFS 4/4 aluminum white" - acrylic fabric with aluminum fibers. Acrylic fiber absorbs evaporative moisture: for drier fungus-free and healthier climate. Shading value ~55-60%. Fabric Made in Germany. Please see Exaco Victorian Accessories page for an excellent resource guide and video with additional information and recommendations for our standard Victorian greenhouses. NOTE: Victorian greenhouses - a standard glass section is 29.5" wide. So therefore the 59" & 88" sets work well, please reach out to Exaco for size recommendations for our models. Or see our recommendations under "More Info" on the listing on our Victorian Accessories page here: <https://exaco.com/greenhouse-accessories-victorian-24.php#climate-section>

  NEW NEW NEW	Hoklartherm Roof Retractable Roll-Up Shade: designed to hang with chains (hardware included) from the ridge beam/rafters on an A frame greenhouse with bolt channels. 		OR purchase an additional triangular support if you are in a higher snow load are to place at the midpoint.						
Wood Slatted Shades from Indonesia								
New exterior wooden shade solution for our Victorian greenhouses. Narrow slats of Bengkirai wood are evenly spaced to allow some sunlight through but efficiently shades the greenhouse. Bengkirai wood from Indonesia in known for its strength and durability. Brass clips connect the slats and set includes 6mm stainless steel bolts with 10 hex heads with holes for the top ring to connect to the ridge beam of the greenhouse. Please note: placement of roof vents during construction of greenhouse is key to these shades being compatible with your greenhouse.								
		Single panel wood shade is sized to fit one pane of a Victorian greenhouse (30.5" wide). This section is designed for a panel with NO roof vents.	EWS-SS		\$170 - Sale! \$110!	\$250 - Sale! \$162.50	Introductory sale 35% off!	Indonesia

NELKE 4 Pro Series Greenhouse from Hoklartherm (Germany) with 16mm Triple Wall Polycarbonate								

Product Photo	Notes	Product Description	Item #	Color	Wholesale Drop-Ship Cost (shipping/freight is addt'l)	Retail Price (MAP)	Size	Country of Origin
	  	Nelke PRO - size 4: Traditional A-frame greenhouse but with 16-mm Triple Wall Polycarbonate glazing. Comes with: 2 Roof vents (including automatic openers); large rear-wall window, and specially for Exaco extra wide 38" ADA friendly Dutch barn style Door (71" tall). Extras we have added: "turn-buckle" cross supports (to increase snow capacity: sandbag tested at 2,000 lbs.), and additional rubber seals at top and bottom of roof panels. NOTE: these poly panels are now made with the UV blocker infused in the panels itself - instead of a very thin film on the outside - for longer life. NEW upgraded doors and hardware. Size: 9'8" wide x 14' long x 8' high center; gutters: 5'3" - extra wide barn style door- 37" - ADA rated.	NELKE4	anthracite grey	\$7,499.00	\$11,499.00	135 sq.ft.	Germany
		Foundation Frame for Nelke 4 PRO - I beam anchoring frame to bury in the ground to anchor the greenhouse without use of concrete.	Nelke Pro 4 Base	anodized	\$1,049.00	\$1,499.00		Germany
Top Shelf for NELKE PRO 4		Top Shelf: 10" W x 13'10" L - Note: due to side wall height - I suggest only 1 shelf per side.	Nelke 4 Top	anodized	\$419.00	\$699.00		Germany
Bottom Shelf for NELKE PRO 4		Bottom Shelf: 25" W x 13'10" L - Note: due to side wall height - I suggest only 1 shelf per side.	Nelke 4 Bottom	anodized	\$524.00	\$869.00		Germany
		Cast Metal 3D Roof Decoration for Nelke PRO 4	Nelke 4 Finials	anthracite grey	\$999.00	\$1,499.00		Germany
Drop Door kit for NELKE PRO		Drop Door kit to place Nelke PRO 4 on a 20" knee wall: . This is for a 20" high knee wall and will be very similar to how the Riga drop door kit works (i.e. replace the door frames with taller extrusions that run from the ground all the way up to the eaves in one continuous piece for added strength)	Nelke Door Drop	anthracite grey	\$699.00	\$1,099.00		Germany
